

## ANRS/VRI Symposium satellite

Sunday 21 October 2018 - 12:30-14:30 - Room Marsella

### Social Sciences in Vaccine Trials: a Booster to Recruit Volunteers

The recruitment of healthy, HIV seronegative patients to HIV preventive vaccine trials has fluctuated since the early days of their implementation. There are numerous reasons for this, including the normalisation of the epidemic, the displacement of HIV community action towards other causes, the transformation of disease management and the lack of direct benefits. Vaccination is being increasingly rejected. At a time when scientific advances offer hope for the development of preventive HIV vaccine strategies, the recruitment of volunteers to future clinical trials may well become a stumbling block. This symposium aims to highlight the contribution that social science research has made to this complex process by both addressing the particular nature of HIV infection and by placing the topic in a more global context of recruitment to preventive vaccine trials.

#### **Chairs :**

**Guillaume Lachenal**, Université Paris-Diderot, France  
**Jean-Daniel Lelièvre**, Vaccine Research Institute, France

**15 mn**

#### **Welcome**

François Dabis, Director of the ANRS, France  
Yves Lévy, Director of VRI and CEO of Inserm, France

**5 mn**

#### **Recruitment of healthy Volunteers for HIV vaccine Trials: a stumbling Block?**

Jean-Daniel Lelièvre, Vaccine Research Institute, France

**15mn**

#### **Volunteers/Participants Recruitment/Enrolment in Africa**

Morenike Folayan, Obafemi Awolowo University, Nigeria

**15mn**

#### **Exceptional Risk: US Healthy Volunteers' Perceptions of HIV/AIDS Clinical Trials.**

Marci Cottingham, University of Amsterdam, The Netherlands

**15mn**

#### **Participant Recruitment in an Outbreak Context: The Ebola vaccine trials in Sierra Leone**

Luisa Enria, University of Bath, UK

**45mn**

#### **General discussion and Round Table: What Kind of Social Science Research to support Clinicians Issues?**

Giulio Maria Corbelli, ECAB/EATG, Italy  
Frédéric Le Marcis, ENS Lyon, France  
Warren Mitchell, AVAC, USA  
Caroline Ollivier-Yaniv, Université Paris-Est Créteil, France

**10 mn**

#### **Conclusion**

Guillaume Lachenal and Jean-Daniel Lelièvre

---

**Scientific Committee** : Guillaume Lachenal, Jean-Daniel Lelièvre, Caroline Ollivier-Yaniv,  
Bruno Spire - ANRS : Yoann Allier, Séverine Ciancia, Véronique Doré, France Lert

**A snack will be served to all participants after the Symposium from 14:30 to 15:00**
